WHEREAS, Since the inception of the UEZ Program in Long Branch in 1994, the local UEZ Program has fostered the retention and creation of hundreds of jobs to alleviate unemployment and has contributed more than six million dollars to improving infrastructure and business development in the zones; and

WHEREAS, Under the State Regulation N.J.S.52:27H-66.6, designated zones may extend their participation in the UEZ Program upon request by the City and approval of the same by the UEZ Authority; and

WHEREAS, pursuant to N.J.S.52:27H-66.6 The City of Long Branch would continue to provide "*qualifying*" businesses within the designated UEZ boundaries, business incentives and the offering of reduced New Jersey state sales tax to consumers of certain retail merchandise;

NOW THEREFORE BE IT RESOLVED by the City Council of the City of Long Branch that the NJ Urban Enterprise Zone Authority approve the requested extension of the Urban Enterprise Zone designation within the City of Long Branch and that UEZ funds accumulated on behalf of the City of Long Branch be done in accordance with renewal regulations for an additional 16 years.

UEZ PROGRAM, 228 BROADWAY, LONG BRANCH, N.J. 07740 (732) 923-2040

City of Long Branch Application Letter for Continuance
In the UEZ Program

To: The UEZ Authority
From: Jacob L. Jones, Director
Date: June 16, 2009

The UEZ Program was started in Long Branch in 1994. The City of Long Branch demonstrated the statistical demographics to qualify as an area in need of commercial revitalization and development. The City was quick to forge a Five-Year Strategy that dove-tailed with the City's Master Plan and this Plan would eventually merge with the City Oceanfront and Broadway Redevelopment Plan.

Initially, the strategy was to identify the commercial uses that would qualify for UEZ certification so that the UEZ fund could grow and then implement the following objectives: improve the parks, parking lots, sidewalks and way-finding signage in the zones; improve crime prevention and code enforcement measures so as to make areas clean and safe; improve the appearance of buildings by offering a matching grant to re-do facades and rear entrances to stores; organize business groups and establish regular meetings to garner input from merchants and to hear, first-hand, concerns and ideas for innovative projects and activities; market and promote the UEZ Program and explain the benefits to merchants, customers and the City; attract more business and customers by offering incentives and helping to generate greater revenues. Ultimately the major goals of creating jobs, enhancing City services and achieving sustainable economic development must be realized in order for the UEZ Program to be successful. The City has accomplished these and desires to accomplish more.

At the start of the UEZ Program in Long Branch in 1994, the unemployment rate wavered between 5% and 7%. The UEZ Program helped to alleviate in part, this condition with the creation of new jobs and the retention of other retail positions. In the year 2000, the unemployment rate was a steady 5.2% for much of the period. In 2006, the rate dipped to 4.7 and remained under 5% until 2008. Since this time the unemployment rate has swelled to over 8%. The UEZ Program, like many other enterprises in society these days, has been hurt by closing businesses, failing banks, poor housing market and rising costs in utilities and gas. Gas inflation has reduced the amount of money that people would spend on many retail items and other consumer goods. But for the same reason, it is vitally important to continue the UEZ Program for another sixteen years. The UEZ Program is considered the one true application where consumers are afforded tax relief. The UEZ benefits are extended to merchants for tax credits when local or

recycled paper

unemployed workers are hired. In tough economic times, tax credits can make a difference whether a store stays operational or has to fold. The UEZ Program has been an immeasurable benefit to the City by providing assistance to police, public works, emergency response units and the entire business community. Local taxpayers would not be able to meet the costs of all of the improvements made in the zones that were shouldered by the UEZ Program.

The City of Long Branch UEZ Program has met the challenges of the 1990's. The program has spelled relief for merchant and shopper in the year 2000 and of course beyond the year 2000. The UEZ has been instrumental in carry out the goals of redevelopment by transforming a summer-resort City into a year-round community with a new oceanfront, new oceanfront shopping district and improved infrastructure. While redevelopment may have slowed in Long Branch it certainly has not stopped. Now, more so than ever before, the UEZ Program is needed and must be extended to once again hold in check the slumping economy and improve unemployment in Long Branch. The UEZ is the vehicle for job creation and sale-tax relief for City residents and others. The UEZ as a partner to the City can help to complete redevelopment in Long Branch. This means more shopping and retail opportunities, greater employment and job creation, greater job retention, sustainable economic development reform, commercial revitalization, improving and increasing the ratable base, greater productivity and a wholesome local economy for now and for years to come. The UEZ Program can help to achieve all of this and much, much more.

Re: Recommendation of Award
Re-Bid Improvements to Municipal Courthouse
City of Long Branch

Dear Mr. Woolley:

Bids were received for the above-referenced project on Thursday, June 11, 2009 at 10:00 A.M., prevailing time. The following firms submitted bids:

Bidder	Total Bid Amount
Adirondack Contracting, Inc. Sea Girt, NJ	$41,000.00
Rocon Contracting, Inc. Brielle, NJ	$74,340.00

We have reviewed the bid package submitted by Adirondack Contracting and have discussed the project with a representative of Adirondack Contracting. The bid price from the apparent low bidder appears reasonable and is within the original Engineers Estimate. The apparent low bidder has provided the necessary documentation that they are experienced and qualified for performing this type of work.

Based upon our review, we recommend that the City award the contract to Adirondack Contracting, Inc. for their bid price of **$41,000.00**, subject to the review and approval by the City Council and City Attorney. In accordance with the Local Public Contracts Law, the award of contract must be made within sixty (60) days from the date of the bid opening.

Upon award of the contract, please provide our office with three (3) original, signed and sealed resolutions of award so that we may prepare the necessary contract documents.

June 16, 2009
Job No. 2-06544-430006
